

Wraysbury Primary School

Our Breakfast Club at Wraysbury will provide **high quality care**. We will be open every morning **from 7:30am** until the children go to school and the session **includes a healthy, balanced nutritious breakfast**. The children can choose their own breakfast, **which is served until 8:15am**, from a **range of options** which include a range of cereals, bread items such as toast, crumpets and pancakes, oatcakes, cereal bars, yoghurts, porridge and plenty of fresh fruit as well as milk and water

We pride ourselves on the **high quality** of our settings and an essential part of this is our staff. Our staff are reliable, experienced, and personable childcare practitioners who take an active and natural interest in the **individuality of our children**, their interests and needs and so our morning themes and **activities will be tailored** to the needs and interests of the children in their care.

This close working partnership supports us in ensuring that we provide the **best possible experiences and care** and that our children get the best possible start to their day.

Wraysbury Primary School After School Club creates a **stimulating** and challenging provision for all our children on site. Meet and greet is considered a huge social occasion within the club where the children can share their experiences and news with each other freely. Homework and **mindfulness zones** are available and encouraged daily to allow for more **focused** quiet spaces when needed.

The children also have the **freedom to engage** in a vast range of social activities such as cooking, electronics, giant straws, tabletop games and other **STEM opportunities**. Our children also have access to the school's kitchen, playground and trim trail. Our registration area and central play space are based in the Studio and have access to the large outdoor space that the school offers.
