Dear Parents and Carers

I am really excited to share with you a new fun app White Rose Maths has launched for children to use at home. The new **1-Minute Maths** app helps pupils to build greater number confidence and fluency. It's all about targeted practice in engaging, one-minute chunks!

The app is aimed at Key Stage 1 pupils, and focuses on adding and subtracting – and on 'Subitising'. **The free mobile app is available for Apple/iOS, Android and Kindle.**

How does it work?

Minute Maths offers children engaging and easily accessible practice in basic number. There's no specific route or starting point. Having chosen a topic, each user answers a series of randomly generated questions (a different set of questions every time means they learn the concept, not a sequence of answers).

When the one minute's up, the questions are automatically marked and presented on a breakdown screen, giving instant feedback on how they've done. If they're struggling with a question, a 'Hint' button reformats the question as a familiar manipulative display that mirrors the approaches used in the White Rose Maths schemes of learning.

We're certain that if you encourage your child to use the app at home you'll see your child building fluency and confidence – and having fun with basic number!

Kind regards

Mrs Brech
